HYUNDAI | NEW THINKING. NEW POSSIBILITIES.

Veloster

BREAKING ALL THE RULES

Veloster

A new concept in a car, the Veloster combines the style of a coupé with the functionality of a hatchback. The Veloster is that concept made real. It's where design meets practicality.

PUSHING THE BARRIERS OF POSSIBILITY

Veloster

DESIGNED

EXPECT SOMETHING NEW

Flowing and sculpted, the Veloster's strong proportions convey a sense of movement and balance. The car's lines are daring and dynamic with tough looking detail and polished illustrations. The hexagonal grille and audacious lamp design express progression and modernity. This sleek coupé conveys sportiness and unique styling which is very different from existing coupés; the Veloster is aggressive, confident and robust.

DUAL CENTRE EXHAUST

Twin-barrelled and tipped in chrome, the centre exhaust is centrally located and built into the rear bumper. This is sportiness at its most captivating.

1 + 2 DOOR CONFIGURATION

One door on the driver's side, two on the passenger side shows Hyundai's progressive nature and willingness to challenge everything you thought you knew about a coupé. With a hidden door handle that ensures the smooth sleek bodywork is not interrupted – the unique configuration of the Veloster sets it in a class of its own.

CHROME RADIATOR GRILLE

The distinctive Hyundai Hexagonal-shaped radiator grille presents a confident, bold and vibrant face to the world. The bonnet is profiled into two planes and features symmetric cut outs, adding to the fluidity, sporty curving of the bodywork. All of this strengthens the Veloster's strong personality.

experience Hyundai

TEMPTING

With a short front overhang, this punchy coupé pulls off a sporty look. It is low to the ground with wide apart wheels and a design that exudes style. Veloster drivers are certain to have a once-in-a-lifetime driving experience.

18” ALLOY WHEELS

To provide that extra edge of sportiness, these 18” alloy wheels match the ferocious personality of the Veloster. The wheels are paired up with 215/40 R 18 tyres to ensure heightened grip and stability.

FRONT & REAR FOG LAMPS

Set low on the bumper, sporty fog lamps complement the headlamps with their stylish and modern design – finishing off the aggressive look of the Veloster.

REAR COMBINATION LAMPS

Curved to follow the bodywork where the rear meets the sides of the car, wing-style rear combination lamps combine style with technology.

OUTSIDE MIRRORS WITH LED SIDE REPEATERS

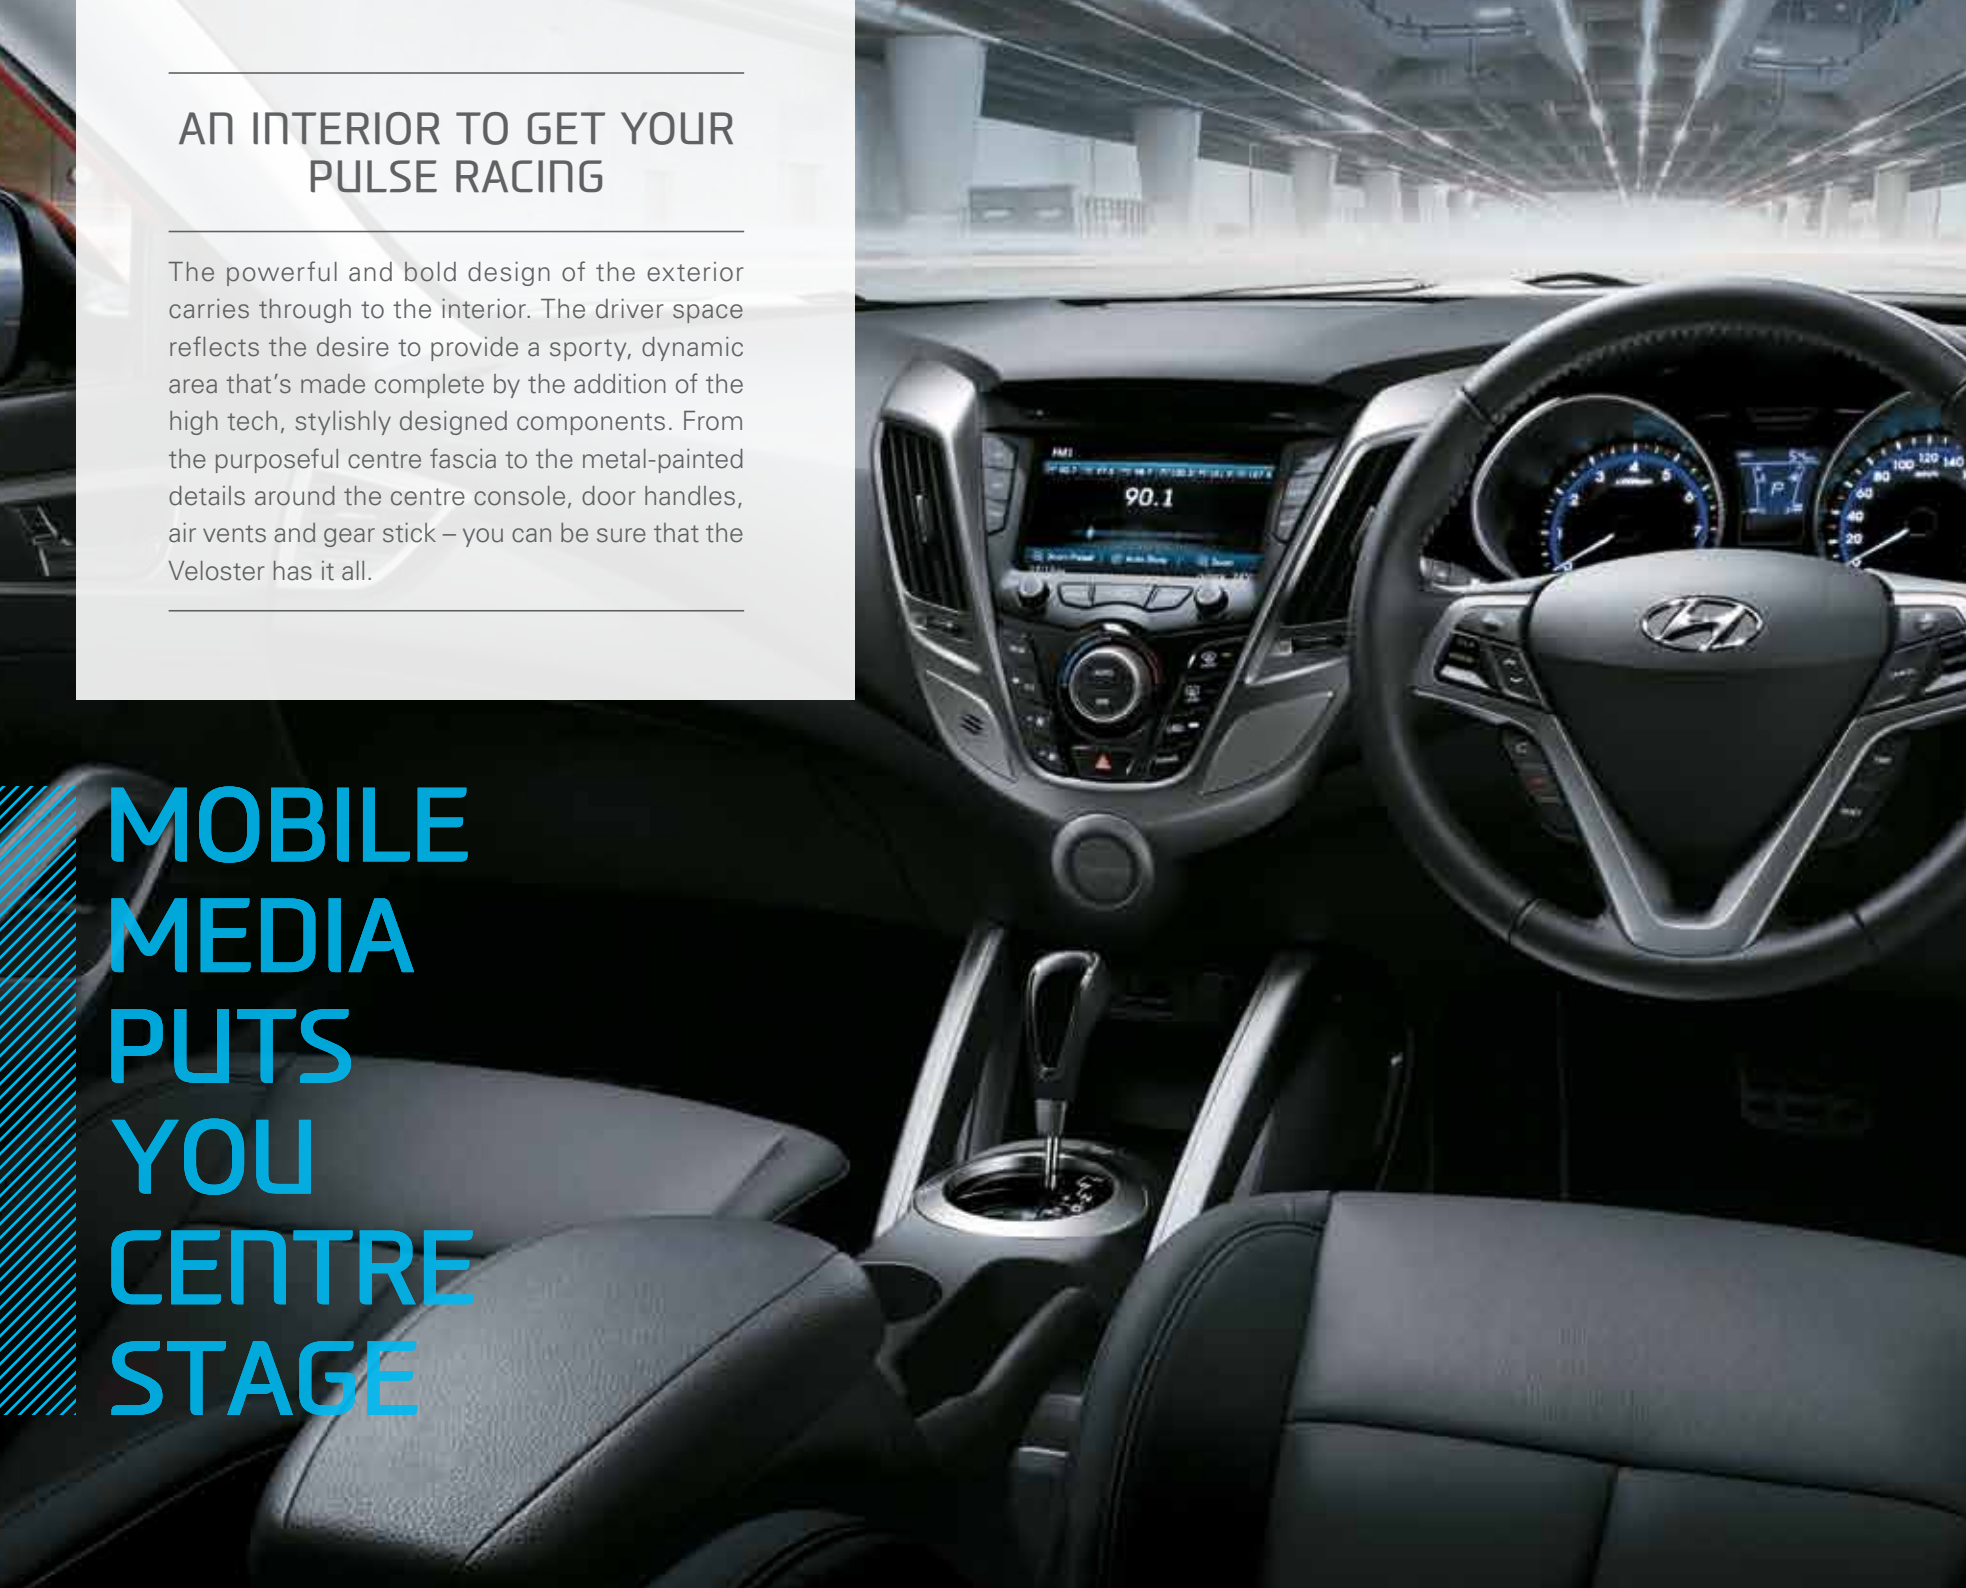
The outside electric folding mirrors are stylishly shaped and feature LED repeaters, adding to the high-tech character and increase visibility when turning.

REAR PARK ASSIST

Sensors in the rear bumper detect obstacles when reversing, and a buzzer sounds when the vehicle gets too close to an obstacle or kerb – ensuring that you and your Veloster avoid those unnecessary hurdles.

AN INTERIOR TO GET YOUR PULSE RACING

The powerful and bold design of the exterior carries through to the interior. The driver space reflects the desire to provide a sporty, dynamic area that's made complete by the addition of the high tech, stylishly designed components. From the purposeful centre fascia to the metal-painted details around the centre console, door handles, air vents and gear stick – you can be sure that the Veloster has it all.



MOBILE MEDIA PUTS YOU CENTRE STAGE

SUPERVISION CLUSTER

With two cylinder-type dials, driving information shown includes the trip computer, vehicle condition, temperature and driving mode.

MULTI-FUNCTION STEERING WHEEL AND CRUISE CONTROL

Steering wheel remote controls allow the driver to adjust the audio system and cruise control without lifting their hands from the wheel.

AUTO AIRCON

Set the desired temperature and let the system take care of the rest, guaranteeing a customised interior climate that is completely comfortable. Ensuring peak driving enjoyment.

BLUETOOTH HANDS-FREE

Integrated Bluetooth allows music to be streamed and phone calls to be made and received hands-free using your Bluetooth-compatible external device. Staying connected matters.

MULTIMEDIA SOUND SYSTEM (AUX/IPOD/USB AND 8 SPEAKERS) PREMIUM SOUND SYSTEM

The Autonet premium audio system features a central speaker, external amplifier and a sub-woofer. Users can also connect external devices using the USB connection. The Veloster utilises the latest multimedia technology to enable you to always stay in touch.

POWER WINDOW CONTROLS

Includes a convenient single touch auto-up function and a power window lock-out switch.

AUTO LIGHT CONTROL

The light control switch automatically allows the headlights to turn ON or OFF depending on the surrounding light conditions.

LUMBAR SUPPORT

The power lumbar support in the driver's seat provides excellent support and comfort for the lower back – to further enhance your driving experience.

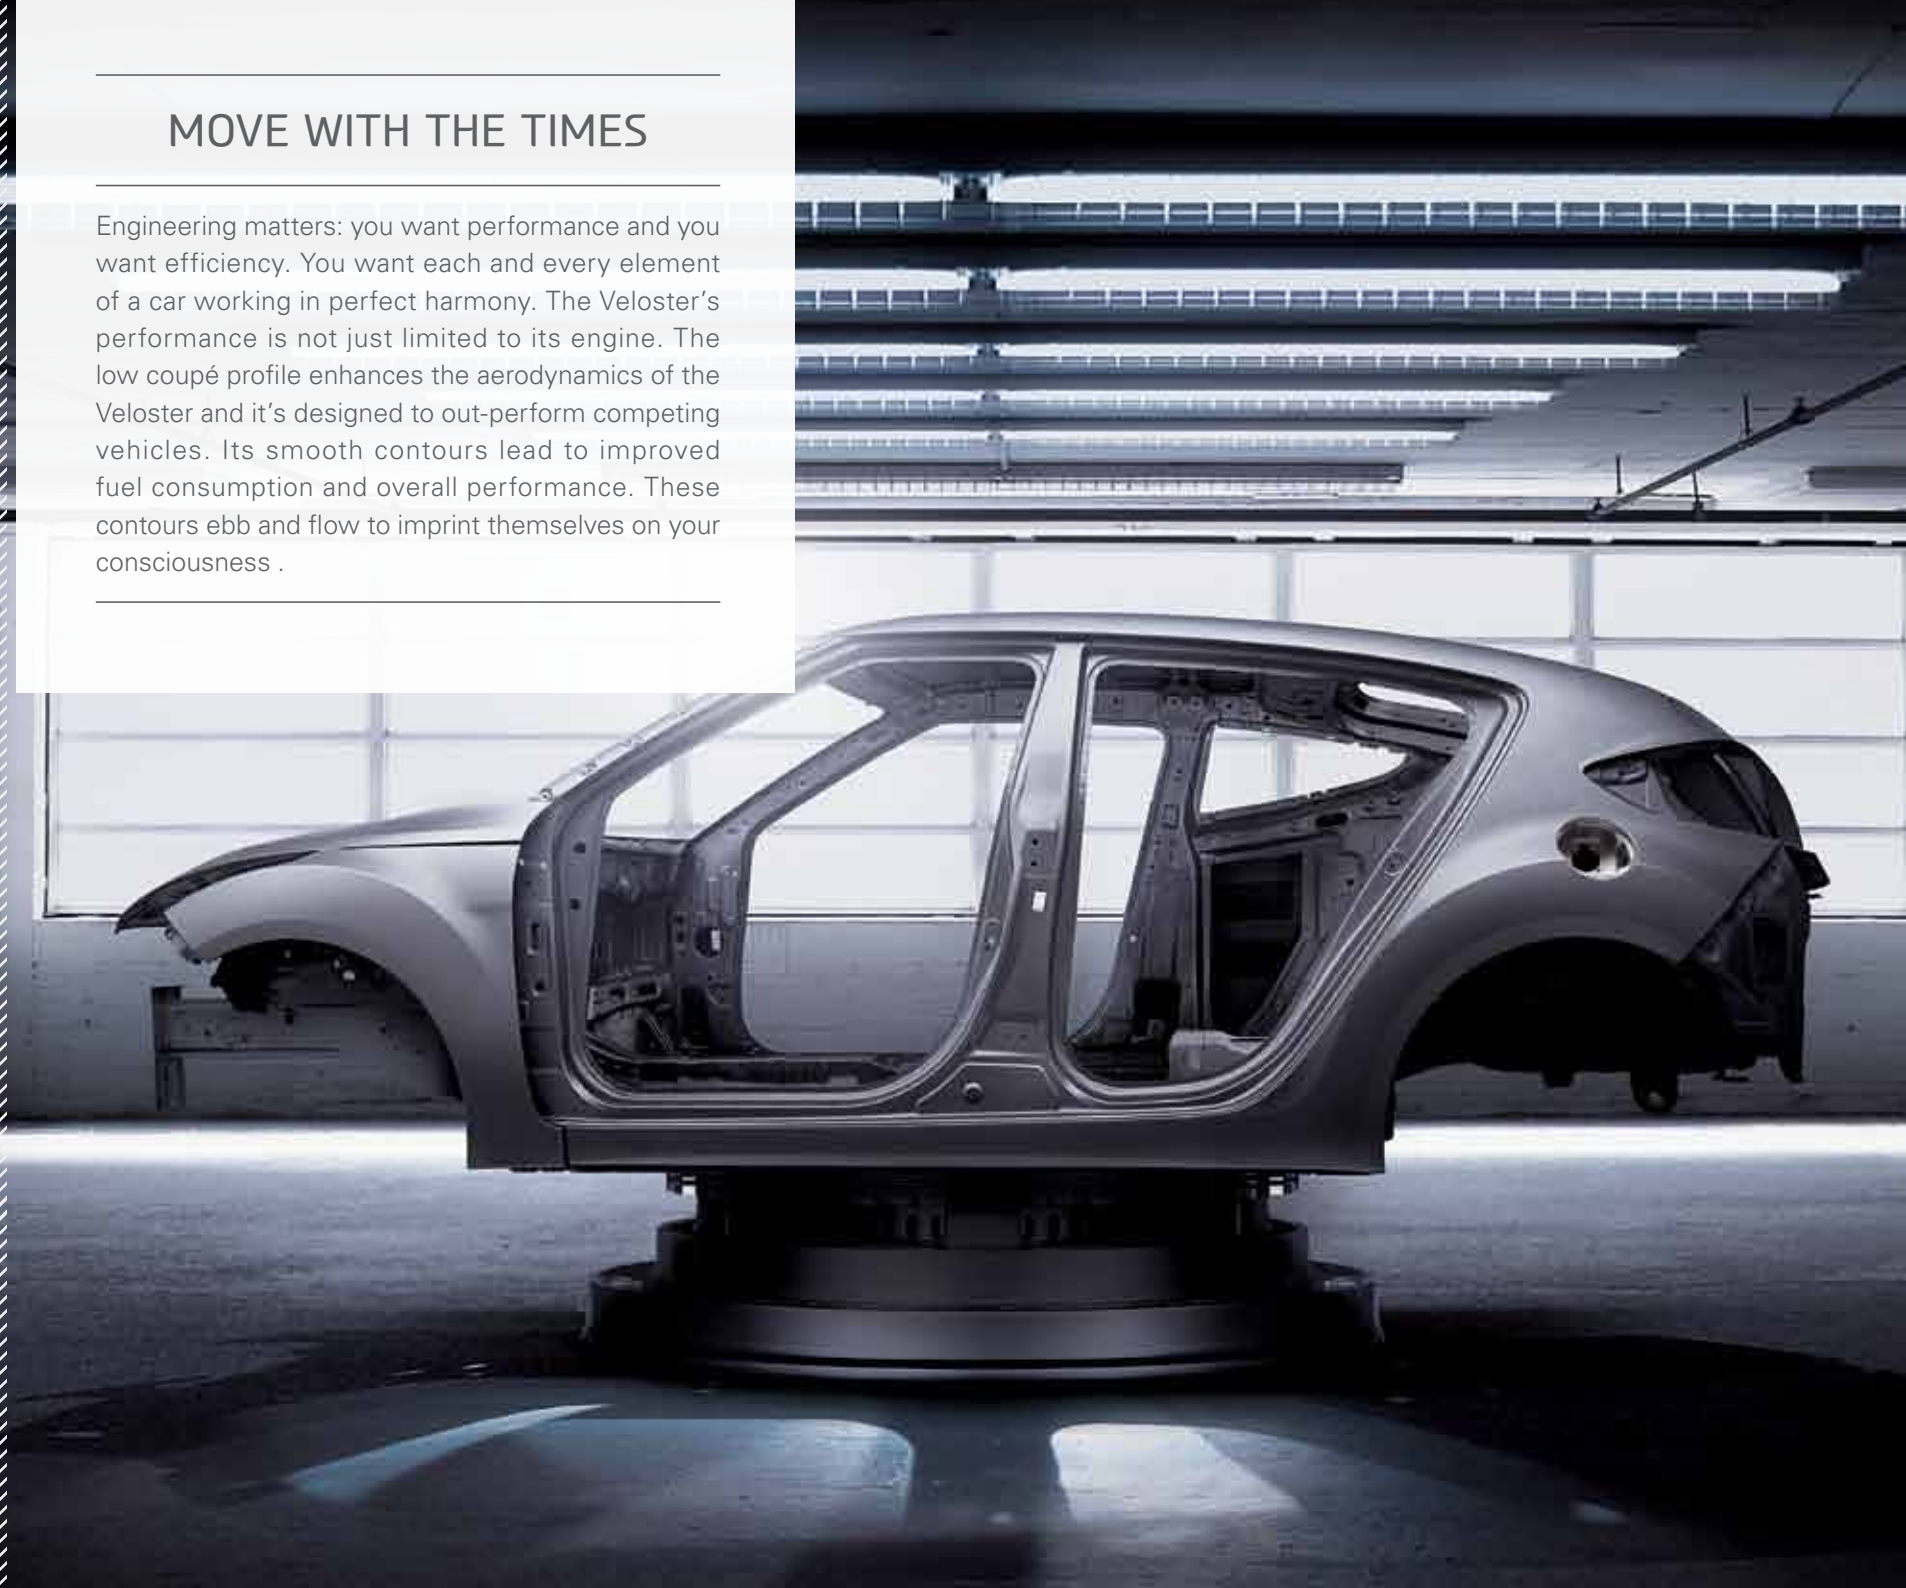
REAR VIEW CAMERA

A camera in the tailgate handle displays the view from the rear on the 7" LCD screen, to assist with parking – adding to the convenience and safety of the Veloster.

Veloster

MOVE WITH THE TIMES

Engineering matters: you want performance and you want efficiency. You want each and every element of a car working in perfect harmony. The Veloster's performance is not just limited to its engine. The low coupé profile enhances the aerodynamics of the Veloster and it's designed to out-perform competing vehicles. Its smooth contours lead to improved fuel consumption and overall performance. These contours ebb and flow to imprint themselves on your consciousness .



ENGINE PERFORMANCE

The 1.6 litre petrol engine of the Veloster provides 103kW of power and 167Nm of torque. The innovative engine of the Veloster paves the way forward for other Hyundai models, by being the first vehicle in the range to have a GDi powered engine introduced to South Africa. The system injects atomised fuel into the cylinders at high pressure to provide maximum power and efficiency.

TRANSMISSION

The 6-speed manual transmission is built with a key and ball-type synchromesh and optimised gear tooth forms, for enhanced precision and smoother shifting. The 6-speed double clutch transmission (DCT) provides enhanced fuel efficiency, improved driving quality, reduced noise and prolonged durability.

SAFETY FIRST

A car has to be well built from every single perspective. That means paying as much attention to safety as style and design. Safety is a top priority for Hyundai, and it's been given close attention throughout the Veloster, in the form of a comprehensive airbag system as standard.

IMPACT MANAGEMENT

For increased protection in the event of a front collision, both the dash and side protection beams are comprised of high tensile steel to limit intrusion into the occupants safety zone. Asymmetrical parallel roof beams and the side pillar beams protect the vehicle and its occupants in the event of a side collision or roll over. All in all, the Veloster's safety features are of world class standards.

6 AIRBAGS

Depowered airbags on the front seats deploy at reduced force to prevent possible injury. Side and curtain airbags add to the protection in the event of a collision. They reduce the possibility of head injuries, and prevent occupants from being catapulted forwards.

ESC
ELECTRONIC STABILITY CONTROL

Electronic Stability Control regulates brake pressure and engine output in the event of a sudden change of direction, acceleration and braking, to bring the car safely under control.

ISOFIX

ISOFIX standard built-in attachment points enable compliant child safety-seats to be quickly and safely secured.
